BLOOMFIELD ROAD Near Allwood Road,

Richfield, N. J.

Paterson R. F. D., No. 2

'Phone, Passaic 2648-M-1

---

### INTRODUCTION.

I wish to thank my customers; also their recommended friends for their past liberal patronage and take pleasure in soliciting their further orders.

After having life-long experience in growing plants, it is my aim to supply the best grade of Nursery Stock. All orders will receive my prompt attention. Give me a trial order and I shall always endeavor to give each customer full money value, whether the order is large or small.

**LOCATION:** My nursery is located on Bloomfield Road, near Allwood Road, midway between Paterson and Bloomfield. Coming from Passaic, Bloomfield Road, (Not Bloomfield Avenue) is the first road to the left running parallel with the canal after crossing the Van Houten Avenue Bridge. Bloomfield Road, (not Bloomfield Avenue) is the northern continuation of Broad Street in Bloomfield. The Paterson-Bloomfield Bus passes the Nursery.

**SHIPPING FACILITIES:** All plants are forwarded by Express or Parcel Post, the purchaser paying charges. I make no deliveries. For Parcel Post Charges, add ten per cent. extra, to all orders East of the Mississippi and twenty per cent. west of the Mississippi.

**REMITTANCES:** Should be made by Post Office Money Order, Express Money Orders or drafts on New York Banks. Please send sufficient money with order to cover the whole bill. I decline to send plants collect on Delivery, and disclaim all responsibility when remittances are not made as above directed. A convenient method of remitting for small accounts is in one and two cent postage stamps. Money should not be sent by mail.

**PACKING:** No charge is made for packing when cash accompanies the order.

**TERMS:** Cash.

All of my nursery is under irrigation.

While I may exert the greatest care to have everything true to name I will not assume any responsibility for errors that may occur, other than to replace any stock that may prove untrue.

Faithfully yours,

GEORGE L. EHRLE.

## PERENNIALS.

I have a choice collection of these hardy plants. The following are the leading kinds: Those marked with \* are well adapted for rock garden. Those marked ‡ for cutting.
